Re: Water Right Permit No. **G2-27614**

Dear Mr. & Mrs. Poulson:

The request for assignment of the above-referenced permit has been processed, and we have changed our records to reflect this assignment. All future correspondence will be sent to you, unless we are otherwise advised.

Your assignment included a proposal for a new development schedule. We are pleased to let you know that your extension request for this water right permit has been granted. Your new deadline to put the water to **full beneficial use** and send a completed Proof of Appropriation form is **July 1, 2008**.

Reasons for granting extension:

- Desire of permit holder to collect additional metering data for issuance of a certificate.

When you return the completed Proof of Appropriation form to us, be sure that:

- It is **notarized**.
- You have written in the **parcel number** for the lot for where your project is located. Parcel numbers can be found on property tax statements or obtained through the assessor's office.

Upon receipt of your Proof of Appropriation form, we will review the information and may come out to inspect your project. Once we are confident that all of the terms and provisions of your permit have been met, we will notify you by mail to request the certificate recording fees for the state and county.

As a condition of this extension, the Department of Ecology is adding metering provisions to update your permit according to the most recent metering statute, Chapter 173-173 WAC. Please review the new metering provisions located on the back of your water right permit.
